

Danderine

Grows Hair
and we can
PROVE IT!

The Great DANDERINE Never
Fails to Produce the
Desired Results.

It enlivens and invigorates the hair
glands and tissues of the scalp,
resulting in a continuous and
increasing growth of the hair.

Letters of praise are continually
coming in from nearly all parts of
the country stating that Danderine
has renewed the growth of hair in
cases that were considered abso-
lutely hopeless.

A lady from Brooklyn writes:
"After a short trial my hair stopped
falling, and I now have a lovely head
of hair, very heavy and over one
and a quarter yards long."

Danderine stimulates the scalp,
makes it healthy and keeps it so.
It is the greatest scalp invigorator
known. It is a wholesome medicine
for both the hair and scalp. Even
a small bottle of it will put
more genuine life in your
hair than a gallon of any
other hair tonic ever made.
It shows results from the
very start.

Now on sale at every drug and
toilet store in the land; 3 sizes
25c, 50c and \$1.00

Free To show how quickly
Danderine acts, we
will send a large sample free
by return mail to anyone who
sends this free coupon to the
Keweenaw Danderine Co., Chicago,
with their name and address
and five in silver or stamps
to pay postage.

BIKE NEWS BY F. J. MOORE

Hastings to Ride Abroad Again.

Theodore K. Hastings, who was
the first American with pluck
enough to take an American motor-
cycle abroad and enter the amateur
contests in Great Britain, has again
sailed for England, where he will
take part in the great annual six-
days' reliability trials of the Auto-
cycle Union of that country. The
contest which is planned for this
year is a much more severe event
than the one which Mr. Hastings
entered last year. The course will
be from Land's End, Cornwall, to
John O'Groats House, the most
northern point of Scotland, thus cov-
ering the extreme length of Great
Britain. The distance is about 900
miles, and several rugged and dif-
ficult mountain ranges have to be
crossed.

American Cyclists at Olympic Games

George C. Cameron and Louis J.
Wintz, the former of the Irish-Amer-
ican Athletic club, and the latter
representing the New York Athletic
club, will ride for America in the cy-
cling section of the Olympic games
at London, beginning July 15th. The
American riders will try in every
sportsmanlike fashion to have
Cameron succeed in the sprint races,
while Wintz will show his ability
as a plugger in the long distance
cycling events. Both men are ex-
cellent in the chosen fields, and are
expected to give good accounts of
themselves in the big games.

Lawson to Quit Cycling Game.

As the result of his unfortunate
collapse on July 4th, at the Salt
Lake Saucer track, it is more than
likely that Liver Lawson will be com-
pelled to quit cycle racing at least
for the present season. In his last
fall Lawson broke his collar bone,
and his accident showed that he had
not fully recovered from the effects
of his fractured ankle, suffered some
time previous. Lawson is under
contract to ride at the Newark Velo-
drome, and that event must either
be postponed or canceled.

Remarkable Motorcycle Economy Test.

An unofficial motorcycle record,
which is all the more interesting be-
cause it was made under ordinary,
every-day conditions, was this morn-
ing made a few days ago by Prof. Al-
bert Bellingham, a teacher in the
Massfield, Ohio, schools. Mr. Bell-
ingham rode from Mansfield to
Columbus and return, on 20 cents

Chamberlain's Cough, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.00.

"In 1902 I had a very severe at-
tack of diarrhoea," says S. N. Par-
ker of Cat Island, La. "For several
weeks I was unable to do anything.
On March 18, 1907, I had a similar
attack, and took Chamberlain's
Cough, Cholera and Diarrhoea Re-
medy which gave me prompt relief. I
consider it one of the best medi-
cines of its kind in the world, and
had I used it in 1902, believe it would
have saved me a hundred dollar doc-
tor's bill." Sold by Dr. Stone's drug
store.

worth of gasoline. His route was
not a bee line, and counting the
points he visited en route, he must
have covered a little more than one
hundred and thirty miles.

Motorcycles That Are Motorcars.

British designers of motorcycles
seem to be bending their energies to
produce a machine that is as near a
motorcar in appearance as it is pos-
sible for a two-wheeled vehicle to be.
A recent step in this direction
is a motorcycle which is equipped
with a steering wheel. It is mounted
in an inclined position above the top
tube, and is sufficiently automobile-
like to satisfy the most ardent imi-
tator of the "big fellows."

Strenuous Police vs. Bicycles.

The British police are making
themselves very obnoxious in en-
forcing the "Lights on Vehicles" law,
especially as applied to bicycles. Re-
cently arrests have been made for
the heinous offense of trundling un-
lighted bicycles after dark, and 50
victims were gathered in, in one dis-
trict in Ireland. This has brought
out so strong a protest from the Cy-
cling Touring club, that the police
officers have been called down and
told to use a little sense.

Adee's Wheel Bridges Two Fads.

Every spring, or about the date
at which congress adjourns, a mod-
est little item appears in the news-
paper, to the effect that the assistant
secretary of state, A. A. Adee, has
departed for Europe to enjoy his
annual foreign bicycle jaunt. This
sort of thing has run along until Mr.
Adee has witnessed the end of one
bicycle fad, has been almost the
sole American representative wheel-
ing regularly abroad, and he is now
in a position to witness—doubtless
with much inward amusement—the
return of popular interest in a sport
that never should have been aban-
doned.

Mr. Adee has just returned from
his 14th bicycle tour in European
countries, and in that time he has
pedaled more than 30,000 miles over
foreign roads, using up, incidentally,
some 12 bicycles. Although past
middle life, Mr. Adee says that he
has improved his health by 100 per
cent, feels ten years younger by
reason of the trip just completed,
and promises to continue the jour-
neys as long as he lives. The sec-
retary says he prefers the wheel as
a mode of conveyance because of
the mental and physical benefits it
confers. He rides slowly and meth-
odically, observing all that is going
on about him. He also observes the
architecture, the people, their
dress, customs and habits, which he
declares tends to improve him in
body and mind. Mr. Adee often rode
as many as 60 miles a day.

Wheeling Rejuvenates Youthful Activity.

For some unexplained reason,
many of the older men who break
into print as conspicuous examples
of the value of cycling as the exer-
cise par excellence, did not take up
the wheel until they were well along
in life's journey.

A conspicuous instance is that of
Major Edward A. Wood, a California
cyclist 67 years of age, who is
just now making a bicycle trip from

New York to his home state. The
major was 55, and a working news-
paper man in Chicago, when he first
formed an acquaintance with the
wheel. Soon after he started on a
tour of the great west and Mexico.
Disregarding the jeering statements
of his friends that he would never
reach San Francisco, he began what
turned out to be an eight-years' ride.
Late in June he attended the reu-
nion of his regiment in New
Haven and shortly afterward started
west, riding a wheel which weighs
32 pounds with all his luggage. This
may be termed "heavy marching or-
der," but the veteran is in superb
condition, as hard as nails and
brown as a berry. He has now cov-
ered more than 50,000 miles in this
country, the Mexican Republic and
Canada, all made since Oct. 15,
1904. Major Wood cycles for the
pure love of travel and adventure,
not because he cares for notoriety or
wants the credit for doing something
sensational. Incidentally he has dis-
covered that the bicycle is the best
all around traveler for every day use
that was ever devised. He has never
known a sick day since he adopted
the wheel as his regular companion.

A Tip for Hard Riding Cyclists.

An authority on the mechanics of
physical exercise, has the following
suggestion on "getting your second
wind," which will be of interest to
bicycle riders who are called upon
for long continued effort. The early
distress which often follows the first
fifteen minutes of hard riding, oc-
curs because while the rate of
breathing is not increased, the ac-
tion of the heart is materially quick-
ened. With the first symptoms of
fat or distress one should force the
respiration, breathing deeper and
deeper. Thus by causing the res-
piratory muscles to act in accord
with the involuntarily heightened
heart action, the lungs are cleared
of the excess of waste matter that
has been dumped, so to speak, into
them, and with its disappearance
the distress, due primarily to a
shortage of oxygen, disappears also.

Motorcycles and Police Duty.

Some figures that show how well
the motorcycle is adapted to police
duty, are given by Chief Knapp of
Toledo in his report of police ser-
vice during the month of June. His
motor cops attended to 596 calls in-
cluding occasions which were acted
upon by the officers during their
regular work of patrolling their dis-
tricts. This accounted for more than
5000 miles of riding, and the pres-
ence of the motor cops on Toledo's
streets has had a wonderfully sooth-
ing effect on automobile drivers who
were innoculated with the speed
microbe.

To Denver on a Motorcycle.

Doubtless the first motorcycle
rider to attend a national convention
on his mount, is C. H. Rice, of St.
Paul. Mr. Rice is an ardent Demo-
crat, and he made the 1600 miles
to Denver, via Kansas City in 13
days, without suffering a single
break down or being detained by
an accident of any kind. At the close
of the convention Mr. Rice will con-
tinue westward, and intends making
a tour of the Pacific coast cities be-
fore returning home.

Big Motorcycle Road Contest On.

The big New York-Chicago motor-
cycle race is on, the contestants hav-
ing left New York, July 6, after the
F. A. M. meet in, or rather, around
that city, and if all goes well the
riders should finish in Chicago July
16. The itinerary calls for an aver-
age of more than 100 miles of riding
every day, not counting Sundays, as
the trip will cover some 1100 miles.
This, it will be seen, is quite a pre-
tentious undertaking. The riders
are arranged in teams, so that each
model of machine represented in the
race will have a sufficient number of
champions to give the different
makes a square deal. That is to say,
the reputation of any one type of
motorcycle will not be dependent
upon the good or bad luck that may
fall to any one individual rider. The
checking for points is being done
on much the same plan that is uti-
lized by the managers of the annual
Glidden Tour for automobiles.

A Sleepless Bike Record.

W. R. Fremersdorf, of San Diego,
California, has a record of having
ridden a bicycle two days and two

Best the World Affords.

"It gives me unbounded pleasure
to recommend Bucklen's Arnica
Salve," says J. W. Jenkins, of Chap-
el Hill, N. C. "I am convinced it's
the best salve the world affords. It
cured a felon on my thumb, and it
never fails to heal every sore, burn
or wound to which it is applied. 25c.
at J. C. Perry's drug store."

CASTORIA.
Beware of cheap imitations.
The name is on the wrapper.

Of Interest To Women.

To such women as are not seriously out
of health, but who have exacting duties
to perform, either in the way of house-
hold cares or in social duties and func-
tions, which seriously tax their strength,
as well as nursing mothers, Dr. Pierce's
Favorite Prescription has proved a most
valuable supporting tonic and invigorat-
ing nerve. By its timely use, much
serious sickness and suffering may be
avoided. The operating table and the
surgeon's knife, would it is believed,
seldom have to be employed if this most
valuable woman's remedy were resorted
to in good time. The Favorite Prescrip-
tion has proven a great boon to expectant
mothers by preparing the system for the
coming of baby, thereby rendering child-
birth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's
Favorite Prescription is not a secret or
patent medicine, against which the most
intelligent people are quite naturally
averse, because of the uncertainty as to
their composition and harmless character,
but is a medicine of known composi-
tion, a full list of all its ingredients being
printed, in plain English, on every bottle-
wrapper. An examination of this list of
ingredients will disclose the fact that it is
non-alcoholic in its composition, chemi-
cally pure, triple-refined glycerine taking
the place of the commonly used alcohol.
In its make-up. In this connection it
may not be out of place to state that the
"Favorite Prescription" of Dr. Pierce is
the only medicine put up for the cure of
woman's peculiar weaknesses and ail-
ments, and sold through druggists, all
the ingredients of which have the un-
animous endorsement of all the leading
medical writers and teachers of all the
several schools of practice, and that too
as remedies for the ailments for which
"Favorite Prescription" is recommended.
A little book of these endorsements will
be sent to any address, post-paid, and
absolutely free if you request same by
postal card, or letter, of Dr. R. V. Pierce,
Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure con-
stipation. Constipation is the cause of
many diseases. Cure the cause and you
cure the disease. Easy to take as candy.

and a half nights without stopping
for sleep. In company with another
rider, Fremersdorf left his home
city for Los Angeles recently, and
after getting a short distance, the
other man's wheel broke down, forc-
ing him to return. Fremersdorf,
however, pushed on, riding both day
and night until he reached his goal.

Cycling at the Garden Square Track.

Arrangements are being made for
two important cycling events, which
will be held at one of the Madison
Square Garden meets in the near
future. One of them is to be a 24-
hour race, which will be a team af-
fair, run on the order of a six-day
event. The other big feature is to
be a motorpaced championship for
which Bobby Walthour will return
to this country from Europe, where
he has been riding for some time.

The rain god, who had fun knock-
ing out the Decoration Day bicycle
races, repeated the performance
with many of the Eastern cycling
events scheduled for July 4th, mak-
ing it necessary to run them on the
Sunday following.

A Golden Wedding.

means that man and wife have lived
to a good old age and consequently
have kept healthy. The best way to
keep healthy is to see that your liver
does its duty 365 days out of 365.
The only way to do this is to keep
Ballard's Herbine in the house and
take it whenever your liver gets in-
active. 50 cents per bottle. Sold
by all dealers.

Men may become wise through
folly. But it is expensive.
